35 U.S.C. §103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

2. Claims 1-28 are rejected under 35 U.S.C. 103(a) as being unpatentable over the combination of Takizawa and Lightbody in view of Sakoda for the reasons set forth in ¶6 of Paper No.6.

With regard to the new limitations added to the independent claims, Sakoda discloses color space conversion using a plurality of predetermined diverse color spaces (col.2, ln.26-36).

Response to Argument

3. Applicant's arguments filed 11-23-99 have been fully considered but they are not persuasive.

Applicant asserts that the combination of Takizawa and Lightbody does not disclose a plurality of predetermined diverse color spaces. However, Sakoda teaches this feature as discussed above. Note that the color spaces of Sakoda are essentially the

same as those cited by applicant in the present specification
(see Remarks, p.5).

Status of Application

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
